-

Q4 (Oct, Nov, Dec)

Custom Importer

Pilot to Select Customers:
Q4 (2021) - Q4 (2022)
Public Launch: 2023

- Provides Networks the ability to self-import client or visit data, including TEFAP or CSFP visit information
 - Allows creation of custom import templates to upload client data regularly
 - Update client records by importing visit data to existing clients in the system
 - Beneficial for Networks to import client data that may have agencies that use non-L2F platforms
-
