---

### **Q4**

#### **Custom Importer**

Pilot to Select Customers:  
Q4 (2021)

Public Launch: Q4

- Provides Networks the ability to self-import client or visit data, including TEFAP or CSFP visit information
- Allows creation of custom import templates to upload client data regularly
- Update client records by importing visit data to existing clients in the system
- Beneficial for Networks to import client data that may have agencies that use non-L2F platforms
